PRODUCT FEATURE (BEACON & STORY)

Do you love to be front and center at the movie theater, right in the middle of the action? The KLH Beacon surround speakers and the KLH Story center channel will take you there. It is time for you to make the most out of your floor standing speakers by adding a KLH surround and center to the mix. There is no better way to experience large, lifelike sound than by rounding out your home theater system with KLH's very own Story and Beacon!

home theaters, the KLH Beacon 2-Way Surround Sound Speakers offer compelling, dynamic audio that guarantees to bring excitement to your sound system. Dressed in Black Oak vinyl, the Beacon's powerful drivers enhance audio and allow you to hear your favorite music and films like never before.

When watching a movie with a home theater sound system, it is important to note that most dialogue is heard from the center channel. From the low purr of an actor's whisper to the excitement of the action hero's celebration, the story is always told with a center channel. Named after a major street in Cambridge, Massachusetts, the KLH Story center channel genuinely brings its name to life. The KLH center channel is timbre-matched to all KLH loudspeakers, excluding the Model Five, ensuring a perfect match between the left-center-right for a complete theater-like experience. As expected, the KLH Story, offered in American Walnut and Black Oak, features the same premium quality drivers, tweeters, and components used throughout the KLH line.

KLH Beacon surrounds deliver jaw-dropping, immersive audio that will put you center stage at a rock concert and inside the climax of an intense action movie. Perfect for custom
